

 Fabbian

*FABBIAN TECH*  
F38 Quarter Product Range

### **Company overview.**

Established in 1961 in the Venetian countryside, Fabbian is one of the premier Italian lighting manufacturers operating in the modern design market, designing and manufacturing lighting fixtures for residential and commercial markets.

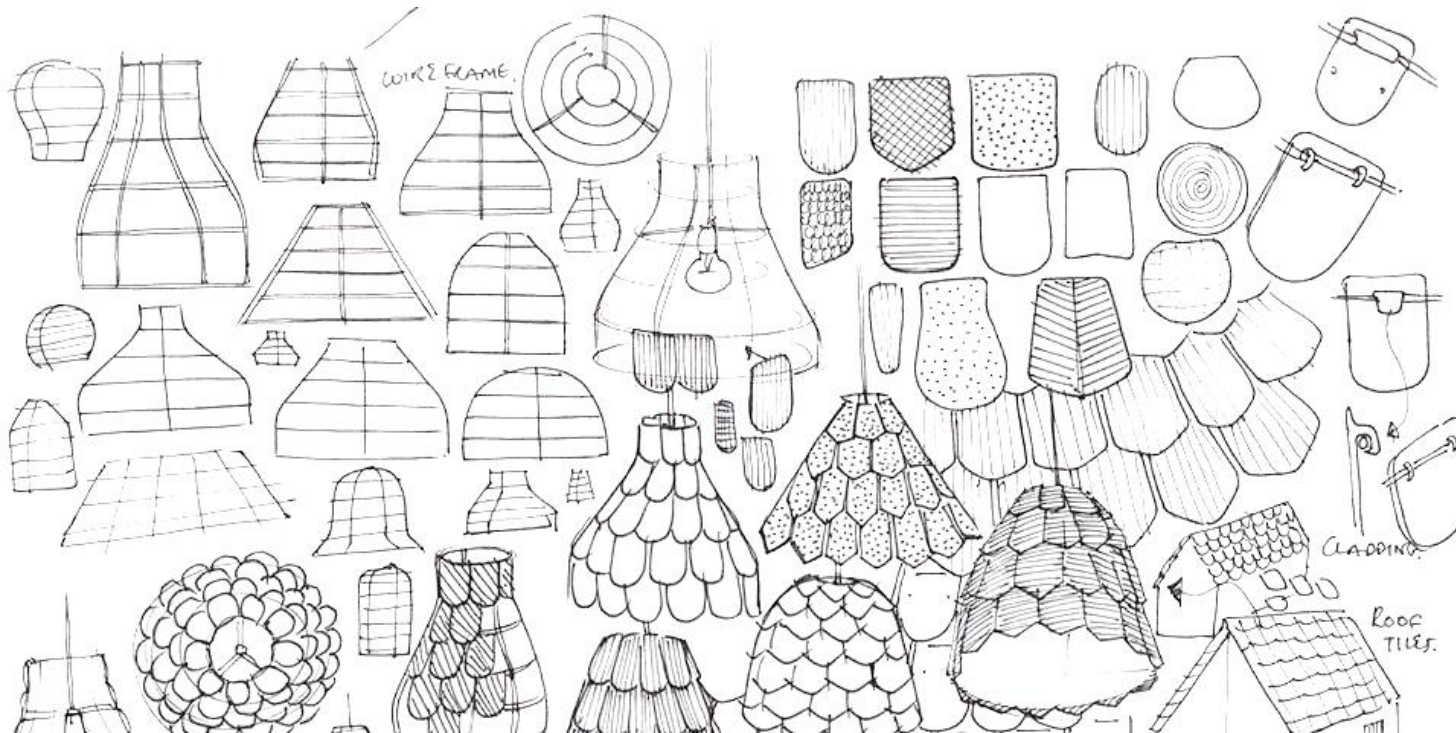

This history, combined with traditional Italian craftsmanship and the finest quality, keeps Fabbian a prominent brand that is internationally recognized in the architectural and design communities worldwide.

### Company overview.

The endless research on new materials, trends, and aesthetics has always been combined with market demands and new business opportunities.

From the very beginning to the design application, the product life cycle is strictly controlled to make sure that each light fixture meets the highest quality expectations and safety requirements.

These components give Fabbian products a vast and diversified array of inspirations and styles, which is also ensured by yearly prestigious collaborations with well-renowned and emerging designers.

## North America.

With over 20 years in North America, Fabbian USA offices are located in the world's capital of design, **New York City**, just blocks from Time Square.

## COMPANY PROFILE

### Company structure.

Proudly headquartered in Castelmimo di Resana, in the **Venetian Countryside**, the company has an international outreach.

From **Venice**, it manages directly the European region, while it distributes the products through agents or importers in the other macro-geographical areas (Greater China, Russia, South and East Asia, South America, GCC countries, Northern Africa).

## Designers.

Fabbian has collaborated with some of the most prestigious designers throughout the world to create unique elements for your home and business.

## F38 Quarter

Just like a design that has yet to take shape on a blank page, the lighting elements of Quarter take form and movement inside a thin layer of aluminum.

Quarter collection is an exciting and refined series of architectural light fixtures that includes ceiling-wall lights in different sizes, shapes and finishes all with AC line-voltage LED light sources.

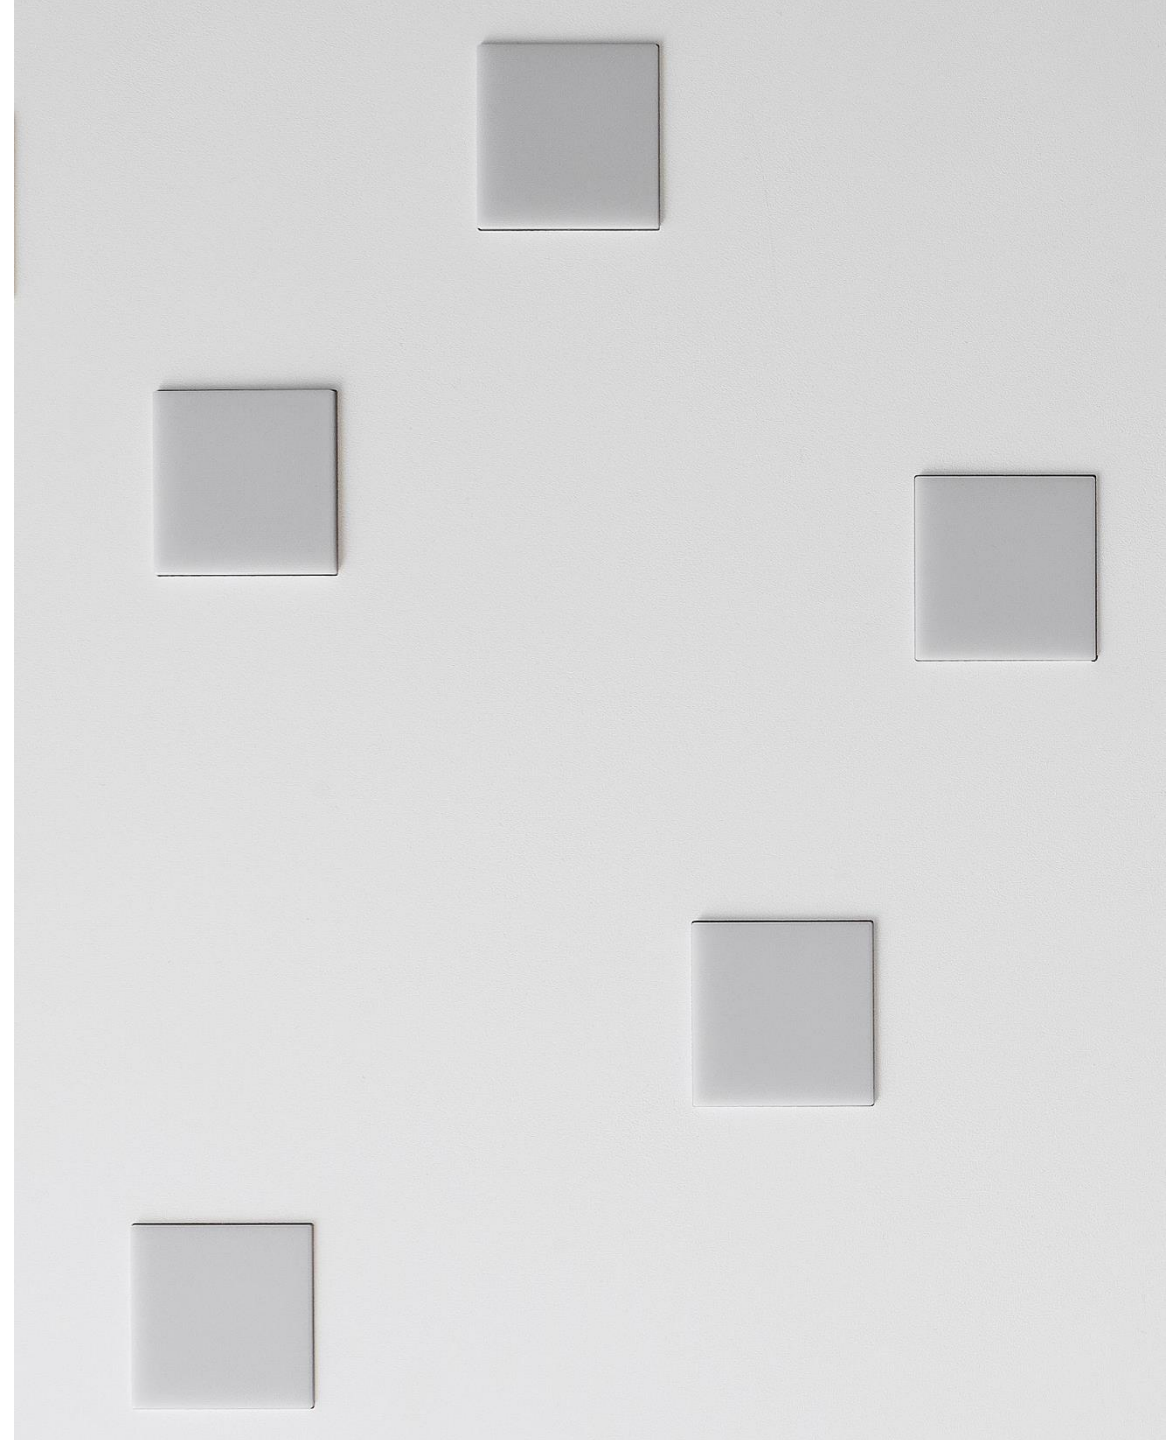

## F38 Quarter

Light plays the leading role; it is directed to the inside of small polycarbonate cubes, that give the illusion of being painted directly onto the ceiling.

### Quarter fits in.

The beauty of this lamp is the fact that it can be used in different environments and is perfect to give depth and movement to the home, but at the same time its design makes it just as suitable for offices.

# F38 Quarter

## Wall and Ceiling Fixures

Quarter Wall and Ceiling lamps are offered in 4 different shapes and sizes and provide ample direct illumination.

Their wide beam (180degrees) and low profile allow them to be used in place of recessed downlights or wherever a surface mount is suitable.

### Models:

- F38 G07A 6" x 6" 1 Light 400 Lumens
- F38 G09A 12" x 12" 3 Light 1200 Lumens
- F38 G11A 27.5"L x 8"W 5 Light 2000 Lumens
- F38 G13A 23.4" x 23.4" 7 Light 2800 Lumens

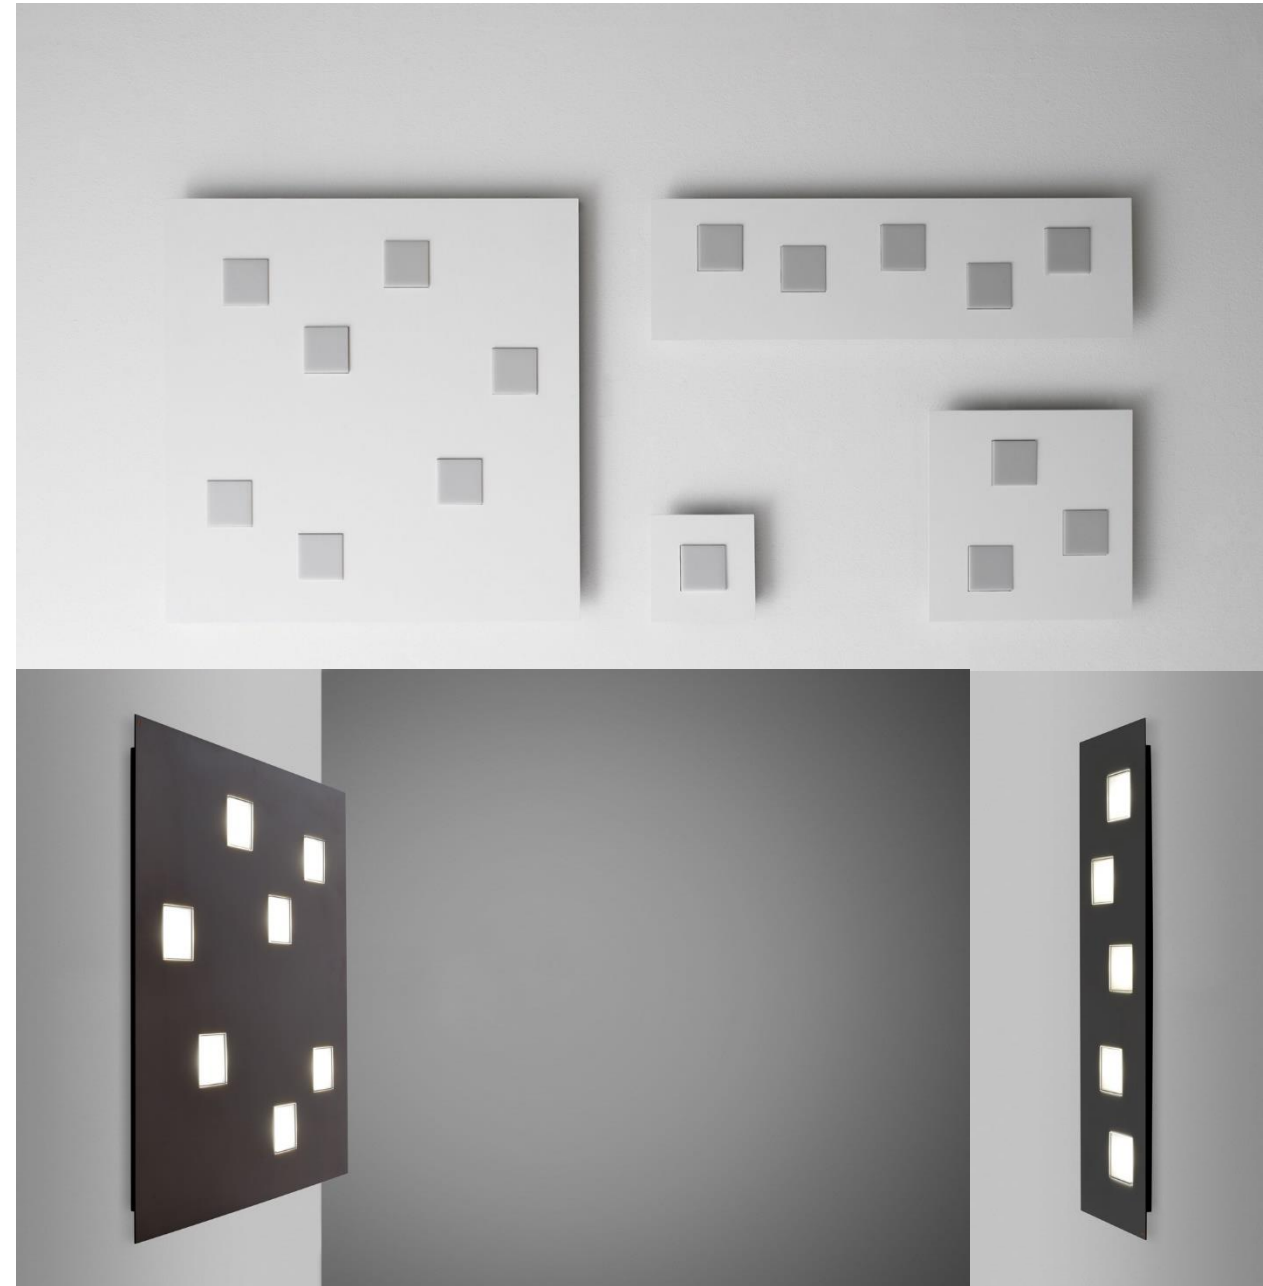

## F38 Quarter

### Design notes

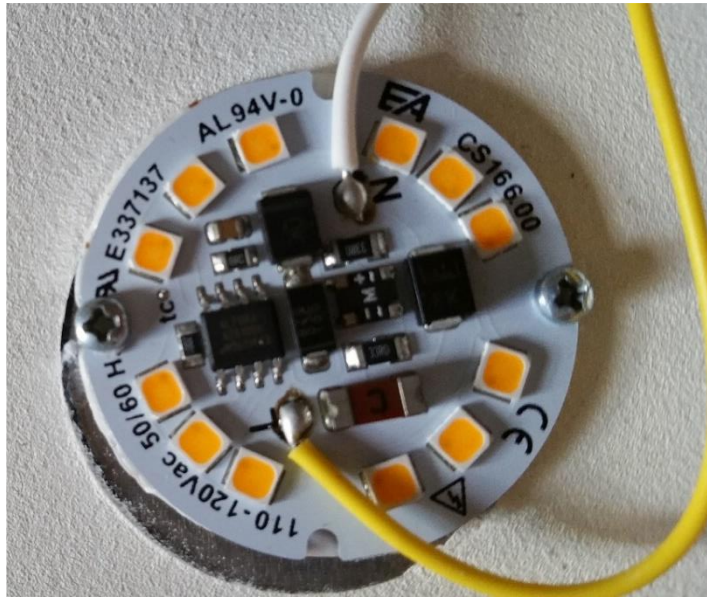

- Uniquely modern Italian design in a shape not typical of most lighting sources.
- Quarter is typically surface-mounted and at only 1" thick with a wide distribution angle (180 degrees), use of Quarter eliminates scalloping typical of downlights and other surface-mount light fixtures.
- With a screwless coverplate, Quarter provides a seamless finishing touch to ultra-sleek spaces.

# F38 Quarter

## Technical notes

- Each LED Module is 4.5W and produces 400 Lumens. Standard Module is 3000K and 80+ CRI. The module is powered directly by 120V with a driver on-board the chip.
- F38 Quarter uses an AC Line-voltage LED light source allowing for maximum flexibility and simplified installation
- A square acrylic lens is used to soften the light source, and provide a uniquely modern aesthetic to F38 Quarter
- Quarter can be used with any 120V LED dimmer to reduce lighting output.
- For better low-end range, an ELV dimmer can also be used.

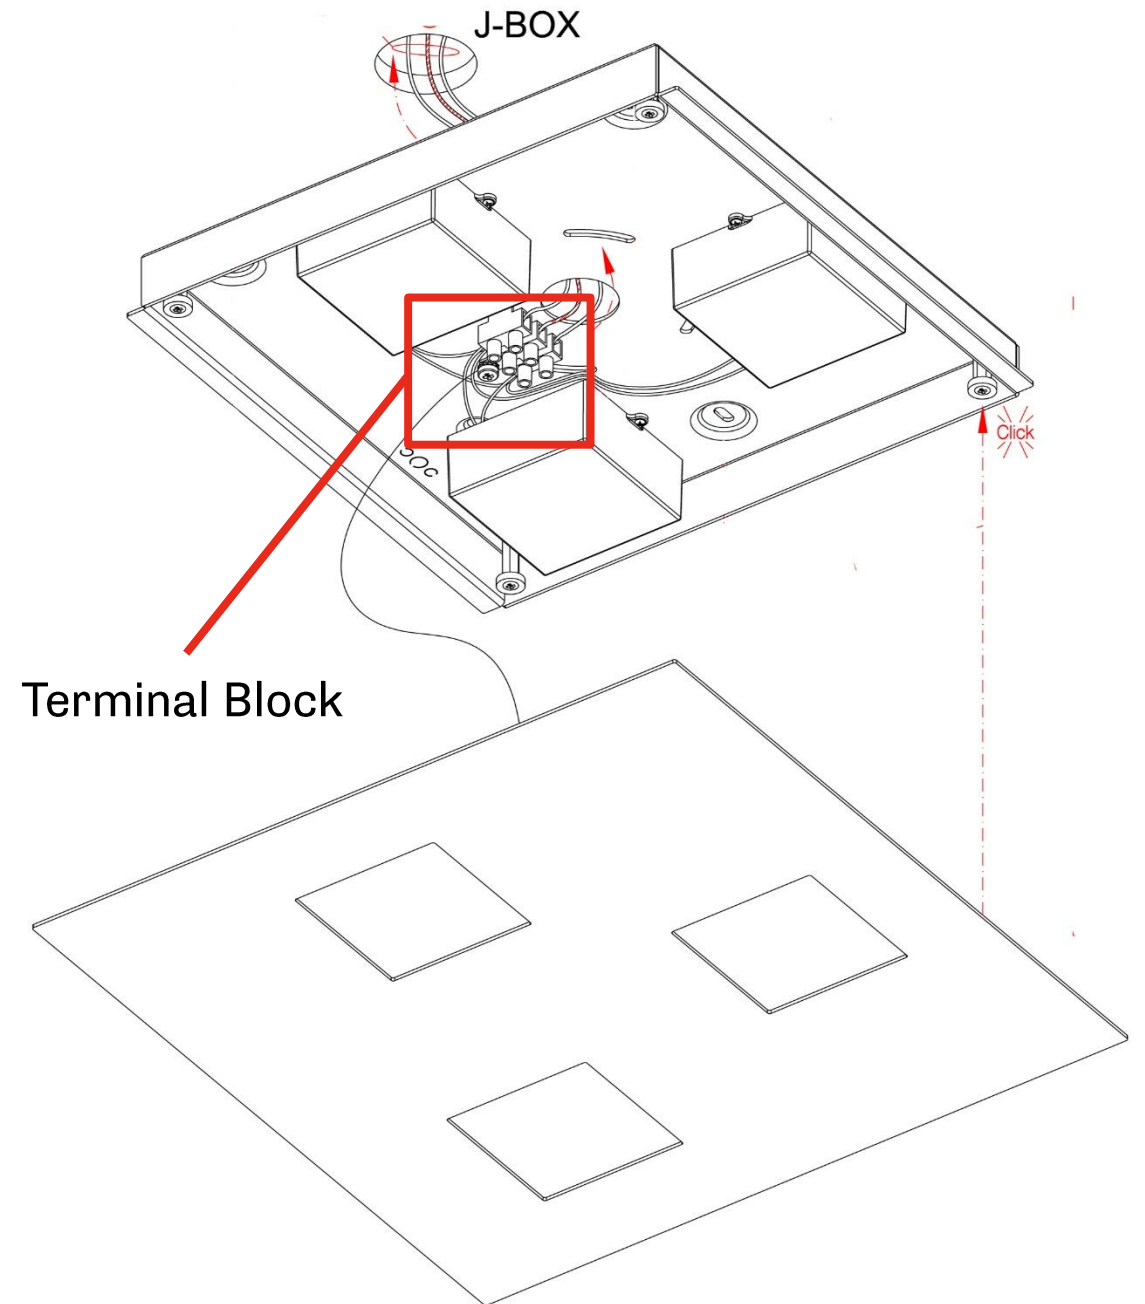

# F38 Quarter

## Technical - Installation

- Quarter comes prewired with terminal blocks for 120V power input
- Just 2 screws to a J-box and 2 wires + Ground to the terminal blocks is all it takes to power any of the F38 Quarter series fixtures
- The Screwless coverplate held by a safety cable magnetically reattaches to the fixture.
- Total installation time should take only minutes

# F38 Quarter

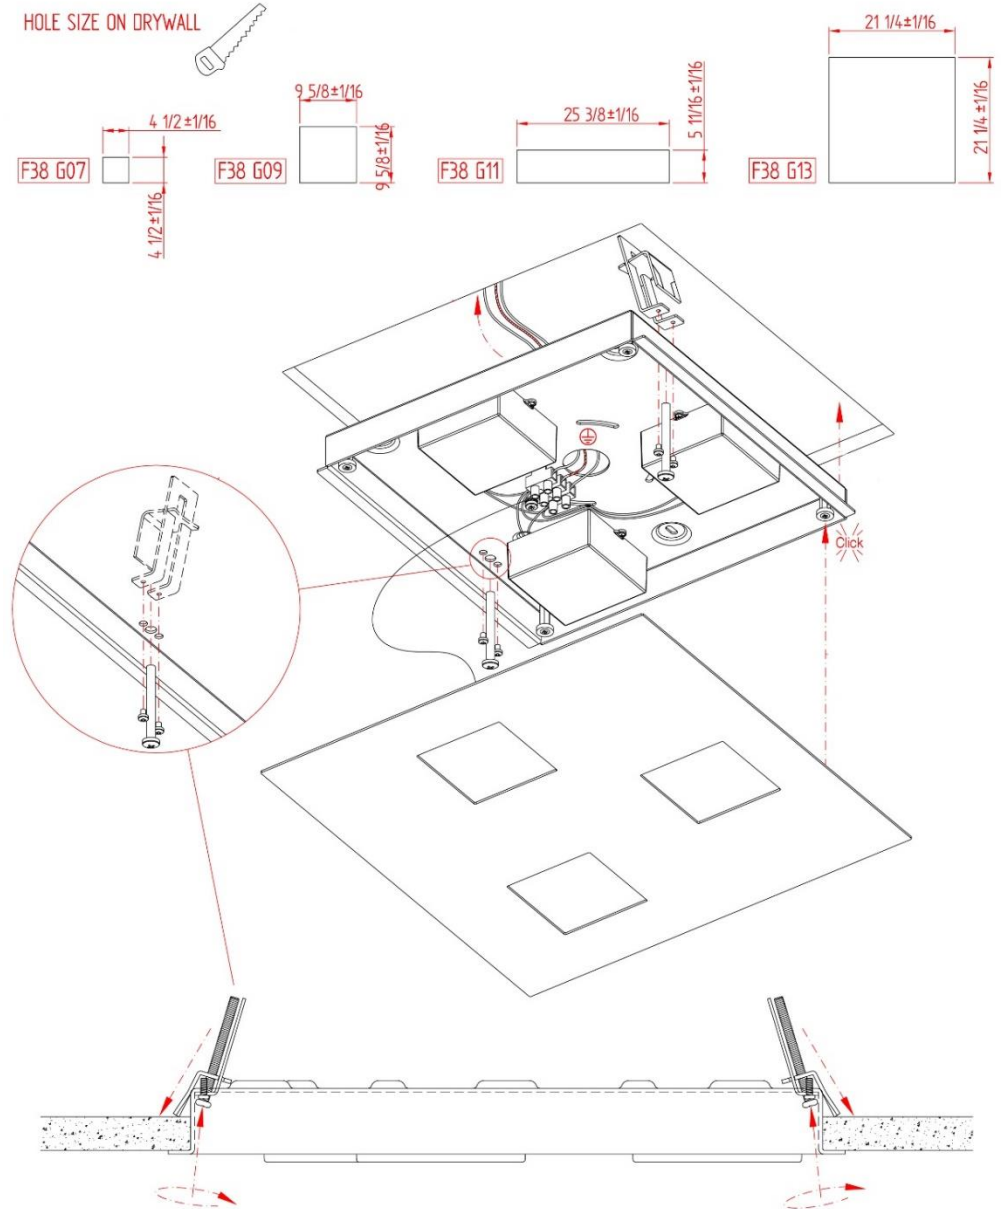

## Technical – Recess Mounting Option

- For recess mounting (shown right), fixture must be framed to sit flush to the ceiling. The cutout detail is provided on the installation sheet. Use the  $\frac{3}{4}$ " opening for direct conduit feed.
- For the 6" square fixtures, no  $\frac{3}{4}$ " opening is available for conduit. In this scenario, mount fixture to j-box recessed appropriately to accommodate installation

## Technical – Grid Ceiling Mounting Option

- For Grid Ceiling Mounting, simply fasten cables to the hole locations provided at the top of the fixture for additional support.
- A  $\frac{3}{4}$ " opening is provided for direct feed from conduit if no J-box is available above fixture.

## Recessed Mounting

# F38 Quarter

## Standard Finishes

Quarter is offered in three standard finishes:

- White
- Anthracite
- Burnished-Satin

## Custom Colors

Quarter can be ordered in any RAL color, minimum of 10 pieces

Anthracite

Burnished Satin

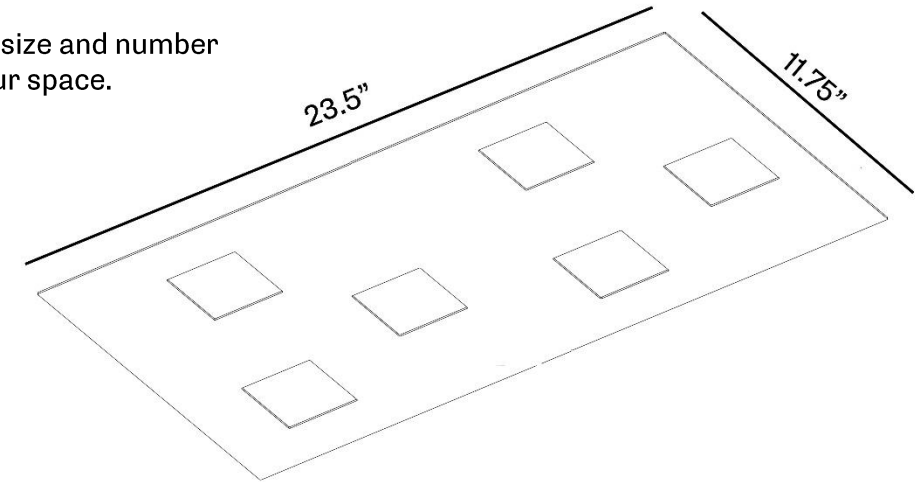

White

## F38 Quarter - Custom Options

Quarter offers several different custom capabilities:

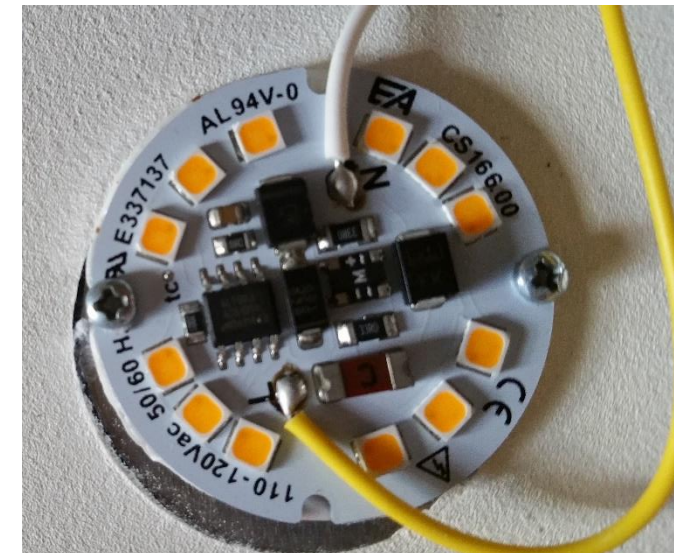

- Finish: Can be factory painted in any RAL or Pantone Color (>10 pieces)
- Longer Length / Size Models: Create your own size and custom number of light modules (minimum 75 pcs)
- Custom LED Options (min 75 light modules):
  - 3000K @90CRI
  - 4000K @80CRI
  - 6000K

Create your own size and number of lights to fit your space.

Choose any RAL Color to match your project.

Need a different color temperature?  
3000K, 4000K or 6000K  
Are possible!

Corporate  
Interiors
